Overview

Address compliance and health & safety issues to make work a safer place.

Our Health and Safety e-learning catalogue is specifically designed to deliver key compliance, health and safety training to all members of staff.

It includes courses in a range of topics including: Dangerous Substances; Display Screen Equipment; Electricity; Fire; First Aid; Health & Safety; Manual Handling and Slips, Trips & Falls. All our courses are produced in the UK and deliver high quality training to all levels of staff and managers, particularly those with personal health and safety and human resources responsibilities.

Use our Health and Safety e-learning courses to help all staff develop:

- ★ knowledge and understanding of safe work practices;
- ★ a better awareness of their responsibilities in relation to health and safety at work; and
- ★ a better understanding of what to do in an emergency situation.
